

Informed Consent Form

Review consent form to confirm all fields are complete.

Specimens for which a completed consent is not obtained cannot be used.

Review that **participant** printed and signed his/her name and inserted a date.

If consented, be sure that the Participant ID Number is written or affixed to form.

Confirm that the name and signature of **person taking the specimen**, and date is included

If **witness** was used, confirm his/her name, signature, and date is noted.
